UNION MEETING CONSIDERED
During the past week Mr. Callahan, advance agent for Mr. Osborne, the "Drummer" evangelist, has been in Medina looking over the field and considering the advisability of instituting a union evangelistic meeting to be held in the immediate future. Mr. Callahan took up the matter personally with the several ministers, as the result of which a special meeting of the Ministerial association was called and the matter considered at length.

That there may be no misunderstanding about the matter among the people of the town, it was decided that the action of the Ministerial association be published in the local papers and also a copy given to Mr. Callahan. The action taken was as follows:

Moved:—That we are in favor of a union evangelistic meeting, under favorable conditions. Carried.

Moved:—That the association go on record as declaring that this time is favorable for preparation for a union evangelistic meeting, to be held this year. Carried.

Moved:—That the secretary be instructed to inform Mr. Callahan that the association agrees that a union evangelistic meeting may be held, when conditions are favorable, and that we feel that the time is ripe for the preparation for such a meeting, but that the time for "setting up" such a meeting in the immediate future would be premature and that when, in the future, conditions for such a meeting are auspicious, we will consider Mr. Osborne for such a meeting. Carried.

Moved:—That a full report of the action of this body be submitted to the local papers, and to Mr. Callahan. Carried. V. S. Goodale, Sec'y.

BLOCKADED

Every Household in Medina Should Know How to Resist It.

If your back aches because the kidneys are blockaded,

You should help the kidneys with their work.

Doan's Kidney Pills are especially for weak kidneys.

Recommended by thousands—home testimony proves their merit.

J. S. Ritter, 433 S. Huntington street, Medina, says: "I had severe pains across the small of my back. When I tried to stoop, it sent sharp pains thru my back. I tried numerous medicines but got little if any relief until I began taking Doan's Kidney Pills. The first box made a great improvement and before long I was in good health" (Statement given Dec. 21, 1911).

OVER A YEAR LATER Mr. Ritter said: "I still use Doan's Kidney Pills occasionally and they always act promptly."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ritter had. Foster-Milburn Co., Props., Buffalo, N. Y. adv.

GREAT INTEREST IN AGRICULTURAL CLUBS

There has been an increase of more than 41,000 in the membership of various boys' and girls' agricultural clubs conducted by the State agricultural colleges and the department in the Northern and Western States. At the close of the fiscal year ending June 30, 1914, there were 110,077 members in the various club projects in the 33 states covered by this work. At the close of the present fiscal year, June 30, 1915, the membership was 151,194, exclusive of the enrollment in the mother-daughter canning clubs.

This work is being carried on cooperatively in 26 of the 33 states in the northern, central and western territory by the department and the extension department of the State colleges of agriculture. In practically every state short courses for the boys and girls and special demonstration schools have been held at the colleges and in the field. During the past year 1,557 club members attended the mid-winter courses at the colleges, 968 of these having their expenses paid by local contributions as a recognition of their achievements in club work. Of the 38 club members who, as champions in their states, districts, or counties for 1914, have become recognized as National All-Star Club members, 31 are now attending high schools, agricultural, or other colleges, 3 of the remaining 7 have already graduated in the boys' and girls' clubs can be carried from high school and 1 will go to an agricultural college this fall.

Experience has shown that the work ried on with even greater success without the aid of large cash prizes and awards. The net profits from the work itself have been found to be the best possible incentive. The members have their attention directed to problems of farm and home management, crop rotation, soil building, etc., and in practically every state in the Union in which the work in being carried on a large number of club members are now working out three and four year rotations of crops. The profits which they derive from club work they are spending on getting an education or for purchase of pure-bred stock or on labor-saving devices. Many are even buying land and thus acquiring an invaluable sense of dignity and independence.

In the canning work, 988 public demonstrations were held during the year, with a total attendance of 118,367. These demonstrations were held primarily for the club members, but parents were always invited, and, as a matter of fact, more than half of those present were grown men and women. One of the great advantages of this club work, indeed, is the fact that it serves to stimulate the parents as well as the children.
